

PROJECT BRIEF

Project Title: Bizconnect-Local SME Directory & Business Hub

Track: Front-End Web development

Problem Statement:

Many small and medium sized businesses in Port-Harcourt and Bonny Island have limited online visibility, making it difficult for potential customers to find their locations, services, and contact information.

Target User/Audience:

- Residents of Port Harcourt and Bonny Island
- looking for local businesses Visitors
- Small business owners seeking more visibility

Project Goal:

To create a responsive web platform that allows users to discover, search, and filter local businesses by category and location while providing business profiles and map locations.

Tools Used:

- HTML
- CSS
- JavaScript
- Leaflet.js
- OpenStreetMap
- Google Forms
- Netlify/Vercel

Expected Impact: BizConnect helps local businesses increase their visibility and makes it easier for customers to find restaurants, fashion stores, salons, and other services. It also promotes local commerce and supports business growth within the community.
